### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The first paragraph of the specification has been amended as shown on the attached sheet, to include the filing date of the parent application.

The following is an examiner's statement of reasons for allowance: Ettinger et al (Journal of Immunology 60(5):2365-2373, March 1 1998) teaches peptides consisting of UL49 residues 105-126 and 125-146, see Table II; however, these peptides are present in a binding buffer comprising the protease inhibitor PMSF, which renders the reference composition unusable as a pharmaceutical. Ettinger does not suggest any reason to modify the composition or any reason to express nucleic acids encoding these specific peptides. Otherwise, the three additional segments recited in the amended claims are allowable for the same reasons as given previously for "residues 105-190 or 177-220"; the prior art previously cited does not point to these specific portions of UL49/VP22.

The provisional double patenting rejection is withdrawn in view of the claim amendments in both applications.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mary E. Mosher, Ph.D. whose telephone number is 571-272-0906. The examiner can normally be reached on M-T and alternate F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Housel can be reached on 571-272-0902. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
